English (Basic): Able to read and understand documents for work.

EDUCATION

Ho Chi Minh City Open University

2022-2026

Management Information System

GPA: 3.6/4.0

ABOUT ME

I am a fourth-year student majoring in Management Information Systems. I am passionate about UX/UI design and enjoy creating simple, user-friendly interfaces. I aim to strengthen my UI skills while continuously learning and improving my UX knowledge. With my background in information systems, I understand user needs and basic technical concepts, and I am eager to grow as a UX/UI Designer.

EXPERIENCE

Intern UX/UI Designer 10/2025 - 01/2026

Lac Viet Computing Corporation

At LacViet, I worked as a UX/UI Designer on HR system projects:

- Redesigned the website and mobile application to enhance clarity and user experience,
- Designed additional UI screens based on client and stakeholder requirements.
- Collaborated closely with BA and developers to understand business logic and user flows.

Reely - Movie Streaming App 5 - 6 weeks

Mobile App

Designed a movie streaming mobile app that helps users discover and watch content quickly with a visual-first experience.

- User Research: Researched user behavior and competitors to define key features.
- User Flow: Created simple user flows to optimize the browsing and watching journey.
- Wireframe: Built paper and mid-fidelity wireframes to test ideas and layout.
- UI Design: Designed a clean and intuitive interface focused on visuals and easy navigation.

Link project

FoodiOS - Smart Dine-in Ordering System 8 - 9 weeks

Responsive Web & Tablet App

Designed a QR-based ordering system that improves the dine-in experience for both customers and staff.

- User Research: Built personas, empathy maps, and journey maps to define key pain points.
- User Flow: Created clear customer and staff flows for ordering and order management.
- Wireframes: Developed low- and high-fidelity wireframes to structure the system.
- UI Design: Designed responsive web (customer) and tablet (staff) interfaces focused on clarity and efficiency.
